

Dear FCC,

The clients I represent as an independent agent who are current Cable and Wireless customers wish to know whether they will be forced to move to Primus as a part of this acquisition if they are in a current 1,2 or 3 year term agreement that may be mid term, or will they have a choice to move to another carrier of their choosing?

The information on this subject that C&WUSA and Primus has supplied to the customers states that term plans will be honored, but it falls short of stating whether a customer on a term plan has a choice or if they will be charged for early termination penalties if they decide to move their business to a carrier other than Primus.

Please assist in clearing this matter up for my clients.

Thanks.
